UGSA AD 2.20 Local aerodrome regulations

1 Airport regulations

At Natakhtari Airport a number of local regulations apply, which are collected in manuals that are available at the Passenger Terminal Building. These manuals include the following:

- a. information about aircraft stands;
- b. information about taxiing from aircraft stands including taxi clearance and engine start-up;
- c. marshaller assistance;
- d. engine start-up and use of auxiliary power unit (APU);
- e. precautions during extreme weather conditions.

A written form of "Local Regulations" may be requested from:

LTD "ServiceAir"
Head Office
Natakhtari, Mtskheta 0038
Georgia
E-mail: admin@serviceair.ge

2 Taxiing to and from stands. Parking on apron and in hangars. Exploitation during winter conditions

Taxiing shall be performed after supervisor's permission on frequency 131.750 MHz (call sign "Natakhtari"), and parking on apron and in hangars are guided by a marshaller on the stand.

During winter conditions areas on apron and taxiway are marked by visual signs. Speed of taxiing on apron or taxiway shall not exceed 5 km/h.

3 Removal of disabled aircraft from runway

When an aircraft is wrecked on a runway, it is the duty of the owner or user of such aircraft to have it removed as soon as possible. If a wrecked aircraft is not removed from the runway as quickly as possible by the owner or user, the aircraft will be removed by the aerodrome authority at the expense of the owner or user.
